

Shock Proof Investments brings you Design and Connectors.

Design and Connectors is the distributor of TRUSS4, truss software.

Design and Connectors offers anyone that has a drive to start something new in the manufacturing of trusses. We have a start-up package for your truss plant that includes-

- **Software (TRUSS4)**
- **Software support and training.**
- **Machinery (Radial arm saw, Roller press, web saw, etc)**
- **Competitive nail plate prices**
- **Design and Connectors is certified and an ITC member.**

TRUSS4 is engineered truss software from the Czech Republic. TRUSS4 is fully backed by Engineers, who will oversee all the designs and offer a full service to fabricators as part of the Design and Connectors SA package.

Please contact us for more details. Our helpful team will gladly help and design a package that suits you. Or visit our website for more information.
